

# NATIONAL OPEN LETTER IN OPPOSITION TO CRITICAL RACE THEORY

Sponsored by Stand Against Critical Race Theory,  
A special national campaign of The Foundation for Liberty and American Greatness  
([www.OutlawCRT.org](http://www.OutlawCRT.org))

**To: School Boards that promote compulsory anti-America, Critical Race Theory, and pro-LGBTQ+ indoctrination of students in their school systems**

I, the undersigned, do hereby pledge my support to parents and grandparents who are up in arms across the country, fighting back against radical leftist school boards that are using our tax dollars to brainwash America's children with:

- \*\* **Critical Race Theory (CRT)**, which teaches that America was founded on racism by white supremacists and divides our children by the color of their skin.
- \*\* **Sexually explicit, pro-LGBTQ+ “educational” materials** that normalize and promote promiscuity, same-sex relationships, and transgenderism.
- \*\* **Lower standards** for math and science in order to bring about racial “equity.”

This blatant indoctrination of our children and grandchildren is clearly designed to further divide America in order to “*reimagine*” it into a tyrannical socialist/Marxist state where everything we say, do, and believe is controlled ... and I for one will not stand for it!

I am proud of parents standing up and organizing against this shameful (and, quite frankly, evil) attempt to turn the minds of our children and grandchildren against their country, against their family, and against their faith.

Just as despicable is the drive to shame white children for being white and to convince black children they can never succeed unless America is destroyed.

Please know that I will help parents and grandparents in any way I can in my own school district and in school districts all across the country to defeat and crush CRT/LGBTQ+ brainwashing and indoctrination of their children and grandchildren.

In addition to signing this Petition, I am willing to donate to groups (**like the Foundation for Liberty and American Greatness (FLAG)**) and spread the word against CRT/LGBTQ+ propaganda to my friends, relatives, and neighbors.

To any school board members across the country reading this letter, please understand you have awakened a sleeping giant that will not relent until this blatant attempt to take over the minds of our nation's youth ends once and for all, all across the country.

Sincerely: \_\_\_\_\_ Date: \_\_\_\_\_
